Smart Label Printer

The fast, easy way to print labels one at a time.

The user friendly Smart Label Printer makes it easy to mix and match fonts, graphics and bar codes all on the same label. Easily prepare customized formats with your own company logo without the hassle of using standard printers.

SmartCapture lets you instantly capture an address from applications like Word, Act!, Outlook, Goldmine, Palm Desktop, Outlook and WordPerfect. All with a single mouse click. You'll never have to retype.

Who else but Seiko Instruments could come up with a label printer this smart and backed by a name you can trust for quality and reliability?

For MAC and PC

Smart Label Software

System Requirements:

Windows 95, 98, NT 4.0, 2000 or XP
IBM PC or compatible using 80386 or higher (or equivalent) processor
RS232C serial port or USB port (USB port requires Windows 98, 2000 or XP)

Mac-User:

Mac OS X10.2 or higher
Power Mac G3/G4 or iMac
USB port
CD-ROM active

- Design your own labels using multiple fonts, graphics and bar codes with the easy-to-use WYSIWYG SmartLabel application
- Capture text from virtually any Mac or Windows application with SmartCapture
- Shrink-to-fit and word wrap features ensure that addresses and other text fit on the label
- Print Code 39, UPC-A, UPC-E, EAN 13, I 2/5, Code 128 and Codabar bar codes with full control over height and density
- Import graphics to create high-quality custom labels with company logos, digital images, etc.
- Import lists of contacts
- Built-in database saves most commonly used labels for instant recall
- All of your contact information is saved and safely stored in the Personal Information Manager (PIM) database
- Windows print driver prints labels directly from virtually any Windows application

Smart Label Benefits

- Eliminates the hassle of trying to print labels with a standard printer
- Smart Label software included with built-in database
- Dual connectivity built-in for both USB and serial connections
- Networkable with Mac or Windows
- Complete hardware and software solution
- The only cost are the labels. Direct thermal printing technology eliminates messy inks and pricey ribbons and toner
- Say goodbye to handwritten, illegible labels. You'll get high quality, professional results every time
- No more fiddling with your standard printer's manual feed or a slow network printer
- Compact design saves desk space
- Quick and quiet operation

Printer dimensions:

6.661" (H) x 4.449" (W) x 7.48" (D)

168mm (H) x 114mm (W) x 190mm (D)

Smart Labels – Formats

Get the most from your Smart Label Printer with our full line of Smart Labels. Ideal for more than just envelopes, these labels come in a variety of sizes and colours good for use around the office or home. From clear labels to colour, from floppy disks and video cassettes, from name tags to 35mm slides, the possibilities are endless.

Print labels for envelopes, file folders, packages, diskettes, Zip disks, name badges, video tapes, Rolodex cards, bar codes and more. All one at a time so there's no wasted effort, money or hassle with expensive sheets of labels.

For best results we recommend the use of Seiko Instruments SmartLabels. Other brands may not be engineered to provide optimum, trouble-free results with your Smart Label Printer, they may not work with your printer or they may damage it and void your warranty. They are available in a wide variety of sizes and colors to properly label almost anything.
