Manage and track property, evidence, files and records, archives, IT equipment, and other assets.

Whether you are a large agency or small municipality, when the demands of asset management, UID, and Real ID Act compliance require labeling, the Smart Label Printer® from Seiko Instruments has the answer.

Easily create custom labels with 1-D and 2-D bar coding, such as DoD and GSA recognized Code 39, Codabar, Code 128, highly secure PDF417 or Data Matrix using our bundled Smart Label software. Simply plug the SLP into your PC or Mac®, via the built-in USB or Serial port, and print labels quickly, as fast as one label per second, in clear, legible, machine-scannable 300 dpi. The SLP is ideal for government with no ink, noise or hassle thanks to our clean and quiet thermal printing technology.

Choose from three great SLP models and our expanding line of SmartLabels™. See all the Smart Label Printer products at www.siibusinessproducts.com or at our authorized resellers.

Temporary visitor ID badges or parking passes using high-density symbology with adhesive SLP-NB and SLP-NR, or non-adhesive SLP-ENT and SLP-ENTL
