

Smart Label Printer 200

The Smart Label® Printer from Seiko Instruments is the easiest way to print labels one-at-a-time.

The Smart Label Printer® is the easiest way to print labels one-at-a-time instantly without tying up your regular printer. Direct thermal printing technology does not require ink, ribbon or toner. The Smart Label Printer 200 prints sharp text and high quality images on labels up to 2" wide of variable length and has USB and serial connections.

Each model includes Smart Label™ software with built-in database and customizable label formats. Save your favorite labels in categories that you define. Our built-in database is contact-based, so it works with all your favorite software. It automatically updates contacts from label address text. You can import lists from popular contact managers and databases in a variety of formats including comma delimited (.csv). The SmartCapture™ feature eliminates retyping by capturing addresses from popular word processors and contact managers. Print labels for electronic postage, envelopes, file folders, diskettes, name badges, video cassettes and more. The SLP 200 comes ready to use and include a printer, Smart Label software, printer cable, power supply and a box of labels.

SMART FEATURES

- The only cost is labels. Put an end to messy ribbons, inks and toner thanks to Seiko Instruments direct thermal printing technology
- Dual connectivity built -in for both USB and serial connections
- Windows Networkable

Smart Label Software Features

- Design you own labels using multiple fonts, graphics and bar codes with the easy -to-use WYSIWYG SmartLabel application
- SmartCapture™ saves time by automatically retrieving addresses from applications like Word, ACT!, GoldMine, Palm Desktop Organizer Software, Outlook and WordPerfect
- Capture text from virtually any Windows application with SmartCopy™
- Shrink -to-fit and word wrap features ensure that addresses and other text fit on the label
- Automatically print bar codes for US, UK and the Netherlands
- Print Code 39, UPC-A, UPC-E, EAN 13, 1 2/5, Code 128 and Codabar bar codes with full control over height and density
- Import graphics to create high-quality custom labels with company logos, digital images, etc.
- Built-in database saves most commonly used labels for instant recall
- All of your contact information is saved and safely stored in the Personal Information Manager (PIM) database
