

Smart jewelry retail and SmartLabels.

When you need intelligent merchandising, inventory tracking, or faster point of sale, the Smart Label Printer®

from Seiko Instruments is solid gold. Easily create

custom labels with 1-D and 2-D bar coding, such as industry standard Code 39, Code 128, UPC for retail products, high-capacity PDF417 or Data Matrix using our

bundled Smart Label software. Simply plug the SLP into your

PC or Mac®, via the built-in USB or Serial port, and print labels quickly, as fast as one label per second, in clear, legible, machine-scannable 300 dpi. The SLP is ideal for retail with no ink, noise or hassle thanks to our clean and quiet thermal printing technology.

Choose from three sterling SLP models and our expanding line of SmartLabels™. See all the Smart Label Printer products

at www.siibusinessproducts.com

or at our authorized resellers.
